Scholars struggle to consistently define and distinguish the terms, but educators agree on the need to transform both “climate” and “culture” to improve academic outcomes. The School Climate and Culture Forum features practical, real-world initiatives that are successfully transforming the quality, character and personality of schools. It showcases programs, assessments and tools proven to improve school culture and climate. Evidence-based and research-based interventions will be introduced, while the forum also highlights high-potential efforts currently being implemented in the laboratory of everyday school life.

Orlando Schedule

Thursday | March 21

Featured Presenters

Baruti Kafele is an award-winning principal, internationally-renowned education speaker and best-selling author. A highly-regarded urban public school educator in New Jersey, Principal Kafele distinguished himself in the classroom and as a school leader. As a middle and high school principal, he led the transformation of four different schools, including “The Mighty” Newark Tech, which went from a low-performing school in need of improvement to national recognition by the National Association of State Directors of Career Technical Education, and *U.S. News and World Report Magazine* recognizing it three times as one of America’s best high schools. Currently, Principal Kafele is one of the most sought-after education speakers for transforming the attitudes of at-risk student populations in America. He is the author of a number of books including *Closing the Attitude Gap*. His latest book: *Is My School a Better School Because I Lead It?*

Merlyna Valentine is a national speaker, consultant and trainer. Merlyna served as a teacher, principal and executive director in a highly successful school district. Her transformational leadership as a school principal resulted in her school being recognized as a “Top Gains” school. She has been recognized with numerous awards and commendations such as teacher of the year, principal of the year, University of New Orleans Alumnus of the Year, and the NABSE Ida B. Wells Risk Taker Award to name a few. Against overwhelming odds, Ms. Valentine overcame a medical tragedy and thrives in her new life. She has learned some valuable lessons since 2007, when her life as she knew it was forever changed and she experienced the closest call to death imaginable. Instead of focusing on what happened and what’s missing from her new life as a quad amputee, she chooses to embrace this new path with a positive attitude.

Michael Dorn’s expertise has been routinely utilized by many organizations including the FBI, the U.S. Department of Education, FEMA, the Israeli Police, the Bureau of Alcohol, Tobacco and Firearms, U.S. Attorney General’s Office, U.S. Department of Homeland Security and dozens of state police departments, emergency management agencies and departments of education. Michael’s training videos are in use by more than 75,000 school systems and public safety agencies in more than 30 countries. Michael has worked on more than 50 Readiness and Emergency Management for Schools (REMS) and Safe Schools/Healthy Students grant projects funded through the United States Department of Education. He has worked on more than 100 major school safety initiatives. Sought out as a neutral, accurate and qualified expert by reputable media organizations, Michael has been featured on *20/20*, *CNN*, *Good Morning America*, *MSNBC*, *ABC World News Tonight* and many other media outlets worldwide. In addition to authoring and co-authoring 26 books and hundreds of articles.

Dr. Ruby Payne is the founder of aha! Process and an author, speaker, publisher and career educator. Recognized internationally for *A Framework for Understanding Poverty*, her foundational book and workshop, Dr. Ruby Payne has helped students and adults of all economic backgrounds achieve academic, professional and personal success. As an expert on the mindsets of economic classes and overcoming the hurdles of poverty, she has trained hundreds of thousands of professionals, from educators and school administrators to community, church and business leaders.

Dr. Payne founded aha! Process to offer a broad range of training solutions—workshops, consulting, books and trainings for K–12, higher education and communities—with a focus on creating sustainable success for everyone. In the field of education, her career-long goal of offering strategies for successfully raising student achievement and overcoming economic class barriers has become the cornerstone of aha! Process’ K-12 work, used with school districts across the country.

Dr. Stuart Ablon is the Director of Think:Kids in the Department of Psychiatry at Massachusetts General Hospital. He is also Associate Professor and the Thomas G. Stemberg Endowed Chair in Child and Adolescent Psychiatry at Harvard Medical School. Dr. Ablon is author of the books *Changeable: The Surprising Science Behind Helping Anyone Change*, *Treating Explosive Kids: The Collaborative Problem Solving Approach*, and *The School Discipline Fix*.

Dr. Ablon received his doctorate in clinical psychology from the University of California at Berkeley and completed his training at Massachusetts General Hospital and Harvard Medical School. A dynamic and engaging speaker, Dr. Ablon was ranked #5 on the list of the world’s top rated keynote speakers in the academic arena. Dr. Ablon trains parents, educators and clinicians, and helps organizations throughout the world implement the Collaborative Problem Solving approach.

Dr. Robyn R. Jackson has been an educator for more than a decade. As a National Board-certified English teacher, she increased the enrollment of minority and nontraditional students in her AP Language and Composition classes and tripled her overall course enrollment within one year without a decrease in her students’ test scores.

As a middle school administrator in Montgomery County, Md., she has worked to revise the district’s gifted and talented policy to be more inclusive of all students and helped craft the district’s critical Middle School Reform Plan.

She also helped lead the largest middle school in the district to state and national Blue Ribbon status. As an educator, she has served as an adjunct professor and has presented her own research at several national conferences.
